## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Cray on March 17, 2006.

The application has been amended as follows:

Please cancel Claims 35-36.

### ***Allowable Subject Matter***

2. Claims 1-28, 33-34, and 37-72 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, regarding Claims 1, 13, 37-40, 52 and 70-71, the disconnection mechanism or means within the one module adapted to move the high voltage connector and the at least a portion of cable to which the high voltage connector is attached through the connector receptor from a contact position to a housed position in a direction away from the other

module to which high voltage connection is to be made, regarding Claims 25, 39, 64, and 72, positioning the high voltage connector and the at least a portion of cable to which the high voltage connector is attached in a housed position by moving the cable through the push through high voltage connector receptor in a direction away from the other module to which high voltage connection is to be made and in combination with the rest of the limitations of the base claims.

Applicant's arguments, presented in the Appeal Brief filed on December 20, 2005, with respect to the Nicholson reference have been fully considered and are deemed persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
